

Specifications

OX – 5 PK

- Strong and durable plastic body
- Timer function for automatic shutdown
- Safety valve for user safety
- A power cut warning function is installed on the device
- The compressor has a thermal protector that protects the device's compressor at high temperatures.
- Advanced oil-free compressor with 30% energy saving
- Has a nebulizer

Product parameters:

- **Maximum flow: 5 liters per minute**
- **Oxygen density: 93%+-3%**
- **Production sound volume: 53 decibels**
- **Dimensions 430*310*560 mm**
- **Power consumption: 500 volt amperes**
- **Weight 21 kg**

Working time without rest: 24 hours•

- **Temperature range: 10-35 degrees Celsius**
- **Humidity range: 20-60 percent**
- **Atmospheric pressure: 86-106 Pascal**
